HOUSE COMMITTEES.

Their Probable Formation by Speaker Crisp.

A GREAT TASK BEFORE HIM.

Mills Will Probably Be Selected as Chairman of the Ways and Means Committee—The First Committee to Be Named is That on Rules.

WASHINGTON, Dec. 9.—As soon as the speakership contest had been settled the members began to speculate as to the probable formation of the house committee by Speaker Crisp. As Mr. Mills was the chief competitor of Mr. Crisp for the speakership, the chairmanship of the ways and means committee will probably be again offered to the Texas member, though if some of the ardent supporters of the successful candidate could have their way it is said they would recommend the appointment of a northern man as the head of the most important committee of the house.

It is generally conceded that Messrs. McMillin of Tennessee, Breckenridge of Arkansas, Wilson of West Virginia and Turner of Georgia, will be the southern men likely to in part compose the ways and means committee, but it is possible that one of these may be dropped should Mr. Mills become chairman, and by virtue of the position, leader of his party on the floor.

The first committee to be named by the speaker will be that on rules. It is thought that Mr. Springer, of Illinois, or Mr. Hoban, of Indiana, will be one of the members of this committee. Either Mr. Mills or McMillin will likely be another Democratic member of this committee.

It is conceded that ex-Speaker Reed will be one of the Republican members of the committee on rules and either Mr. Burrows, of Michigan, or Mr. Henderson, of Iowa, will stand a fair chance of being named. The speaker will, of course, be the other member of the rules committee.

The talk as to changes in the rules is such that at this early stage no one can say what may be done. The prevailing sentiment among Democrats is that the party leaders will favor a return to a code something like that which governed the body when the Democrats were last in power, with the power of the speaker to count a quorum eliminated.

There is much talk of either Mr. Springer, of Illinois, or Mr. Holman, of Indiana, for the chairmanship of the appropriation committee.

Other speculations include the following chairmanships of leading house committees. Agriculture, Mr. Hatch, of Missouri; postoffices and postroads, Mr. Blount, of Georgia; rivers and harbors, Mr. Blanchard, of Louisiana; naval affairs, Mr. Herbert, of Alabama; elections, Mr. O'Ferrall, of Virginia; Indian affairs, Mr. Peel, of Arkansas; public lands, Mr. Holman, of Indiana, or Mr. McRae, of Arkansas; invalid pensions, Mr. Martin, of Indiana; judiciary, Mr. Oates, of Alabama, or Mr. Culberson, of Texas; foreign affairs, Mr. McCreary, of Kentucky, or Mr. Chipman, of Michigan; labor, Mr. Tarsney, of Missouri, or Mr. Shively, of Indiana.

The chairmanship of the coinage committee will be carefully considered, but the talk is that the speaker will probably again appoint Mr. Bland, of Missouri.

SCAFFOLD GAVE WAY.

Two Men Killed, Two Others Fatally and Seven Others Seriously Injured.

BETHLEHEM, Pa., Dec. 9.—The thriving town of Lehigh, formerly known as Chaddenhutten, Carbon county, was thrown into great excitement yesterday afternoon at 4 o'clock by a scaffolding giving away, killing two men, probably fatally injuring two and seriously injuring seven others. While a number of carpenters were engaged erecting a large ice house on the banks of the Lehigh river, the scaffolding gave way and precipitated all the men to the ground below, a distance of the thirty-five feet.

The dead are: Thomas Arnes, aged thirty-five, of Franklin, one of the contractors; Oscar Heilman, aged twenty, of Lehigh, son of the man erecting the ice house. Both dead when picked up.

Aaron Dreisbach, of Mahoning, Carbon county, and Nathan Heilman, of Lehigh, were probably fatally injured.

Henry Schultz, of Lehigh; Levi Hahn, of Franklin, and Benjamin Ruch, of East Penn. were seriously hurt. It is a miracle that all were not killed.

WORSE THAN REPORTED.

Details of the Railroad Wreck Near West Plains, Missouri

KANSAS CITY, Dec. 9.—Further details of the wreck at West Plains, Monday night, picture the scene that followed the collision as being most frightful. The caboose attached to the construction train contained thirty-eight men, not one of whom escaped injury. Five were killed and twenty others were seriously hurt, some of them fatally.

The following are among those whose injuries are likely to prove fatal: John Foley, Matt Harrison, James Davis, Ike Farner, Charles Laughery and James Wilson. Among those seriously injured, but who will recover, are: Mike Murphy, George Miner, James Daly, Nelson, John Dunlap, Thomas Connell, Chris Weiss, H. Heigins, Hugh Shipley, Fred Butler, Pres Bryant, Oscar Davis, James Connor, James Mack, J. Conlin, James Wall.

The wreck was caused by a misunderstanding of train orders by the conductor and engineer of the construction train.

Ben Martin died yesterday. At least five others in the Sisters' hospital at Fort Scott will die.

WALKS NIGHTS AND NO BRAINS.

Two Indians Cause a Slight Disturbance at the Tongue River Agency.

ST. PAUL, Dec. 9.—A dispatch was received at the military headquarters here yesterday from Miles City, Mon., stating that troops had left Fort Keogh for Tongue River agency to quell an uprising of the northern Cheyenne Indians. Inquiry at the headquarters revealed the fact that instead of an uprising, a little trouble had been experienced in effecting the arrest of some Indians who had killed cattle off the reservation.

The ranchers posted cowboys to watch the bunches of cattle, and they at last detected Walks Nights and No Brains in the act of killing them. A demand was made upon the agent for the surrender of the two Indians, and the Indian police succeeded in arresting Walks Nights, but No Brains defied the police and escaped into the hills. The sheriff of Custer county and posse went to the agency to make the arrest in which the police failed. It was thought advisable that troops, to whom the Indians are more accustomed than to civil officers, should be on the scene in case of trouble.

With this end in view, General Merritt ordered Troop R, First cavalry, Captain Bouteille commanding, from Fort Custer. Since the arrival of the cavalry on the scene, everything has been extremely quiet. Lieutenant Brown will inquire into the cause that led the Indians to kill the cattle; also to whether it is necessary to make a permanent camp at the agency. No serious trouble is anticipated, and the troops have merely been sent out as a precautionary measure. In a short time a company of infantry from Fort Keogh will be sent out to the agency.

NOBODY HURT

In the Fire at the City Prison at Columbus, Ohio.

COLUMBUS, Dec. 9.—At 1 o'clock Tuesday morning fire was discovered in the third story of the city prison, in the room used by the patrolmen to leave their uniforms in when not on duty.

The fire spread quickly to the attic, where it was confined and extinguished after a severe fight by the firemen. The metal roof saved the upper part, preventing the wind from feeding the flames. The cell rooms, in the basement, were occupied by thirty-four male and seven female prisoners, who were greatly excited, fearing that they would be burned up. Their fears were groundless, for that part of the building is fire proof.

After the fire had progressed for some time water began to run down into the cells, and fearing that cold and exposure would cause sickness among the prisoners, the chief had them transferred to the county jail where they were kept until about 6 o'clock, when they were returned to the prison. The loss to the building will reach about \$3,000, confined to the attic and a portion of the floor, where the fire originated.

Water damaged the court room and clerk's office to some extent. The fire started from throwing a cigar stump into a wooden spittoon filled with sawdust. Insurance \$1,500. Many grossly exaggerated stories have been sent out concerning the fire, but the loss was small, and nobody was hurt in the slightest.

Taken from Jail.

STARKE, Fla., Dec. 9.—Frank Foster, who was to have been hanged here on Thursday for the murder of W. H. Epperson, two years ago, was forcibly taken from the county jail Monday night by a party of unknown men. It was at first believed that he was the victim of a lynching party, but as no trace of Foster's body can be found, the opinion is now general that he was rescued by friends. Foster is a very desperate character and a great deal of uneasiness is felt because the man had threatened to kill the county officials who were prominent in securing his conviction for murder. A posse has been sent to look for the prisoner.

Shot to Death in Jail.

COLUMBIA, S. C., Dec. 9.—Dick Lundy, colored, was shot to death in jail in Edgefield county yesterday by a mob for the murder of James Onst, the son of the sheriff of the county. The murder occurred last Saturday night. The lynching was expected all day and an immense crowd was in town. The governor was notified of the fact and called the Edgefield Rifles out, but the lynching occurred before the orders reached the place. The governor has offered a reward of \$500 for the apprehension of the chief of the leaders and \$250 for the accessories.

Letter Carrier Arrested.

NEWARK, N. J., Dec. 9.—A letter carrier named James Lynes, was arrested yesterday evening charged with robbing the mails. He had thirty-two letters in his possession when searched at the police station. Quite a number of letters had been lost on Lynes' route recently, and an investigation was instituted, which resulted in the arrest of the carrier. Lynes was discharged from office some time ago by the present postmaster's predecessor, but has since been re-instated.

But One of the Lynchers at Large.

DARLINGTON, Wis., Dec. 9.—John E. Meaghan, one of the men under arrest for lynching Anton Siebold, tried to hang himself in his cell yesterday with a towel. He will probably die. Frank Meaghan yesterday voluntarily surrendered. This leaves only Barney Meaghan of those indicted and for whom warrants were issued still at large. Bail in each case has been fixed at \$3,000 and no effort has been made to release any of the prisoners upon the sureties required.

IMPERIAL FUNERAL.

Solemn and Imposing Event in Paris.

DOM PEDRO LAID TO REST.

The Exiled Emperor of Brazil Buried with a Quantity of the Soil Which He Brought from His Beloved Country. Other Foreign News.

PARIS, Dec. 9.—For the first time since the body of the great Napoleon was received from St. Helena, Paris yesterday witnessed an imperial funeral, very different, however, from the historic display that attracted 1,000,000 witnesses, and was attended by 150,000 soldiers. The funeral of Dom Pedro, the deposed emperor of Brazil, took place under cover of darkness. There was no grand parade of soldiery, and the enormous crowd that witnessed the solemn and simple procession was impressed by the lesson of the scene.

The fact that the ex-emperor had carried with him in his exile a quantity of the soil of his beloved Brazil became known to the public yesterday, and deeply touched all hearts, for none are quicker than Frenchmen to appreciate love of country. Dom Pedro had carried this Brazilian earth with him from place to place, wherever he journeyed in his exile. It was dug hastily in the garden of his summer palace at Petropolis, when he bowed to the decree of banishment from Brazil, and he carried it with him on the Alagoas to Lisbon. This soil was put in his coffin, so that his head and body rested upon it.

During this afternoon, from 2 to 5 o'clock the public were admitted to view the body lying in state. Later in the evening the mourners gathered to follow the cortege to the Church of the Madeleine. Among them was the Duke of Chartres, and the Prince de Joinville, the Count and Countess d'Eu, Prince Ernst of Saxe-Coburg and his son, Prince Louis, and grandsons Pedro Augustus and Louis, grandchildren of Dom Pedro. The Portuguese minister was also present, and 300 Brazilian residents of Paris assembled to pay respect to their former monarch.

The coffin was covered with Brazilian flags, and conveyed on a bier covered with black velvet, studded with silver stars. There was no ostentation in the display. Everything was as simple as Dom Pedro himself might have desired. The prince and their families rode in carriages. Then followed the Brazilians on foot. The popularity of Dom Pedro was attested by the respectful silence of the Parisian crowd. Not a jeer was heard, and the police had but little trouble in preserving order.

The remains were received at the entrance of the Church of the Madeleine by the Abbe Lerebours. The interior of the church was draped in black, and the Brazilian colors adorned the catafalque upon which Dom Pedro's remains were to rest during the services. The church was thronged. The Abbe Lerebours officiated at the solemn services, and among those present were many of the notable residents of Paris.

The remains were placed for the night in the vaults of the Madeleine. Today a solemn requiem mass will be celebrated, and the coffin, containing the remains of Dom Pedro, will be placed upon the catafalque in the center of the Nave.

The inner coffin is covered with black velvet, starred with silver, and the lid is of glass. There is a satin inscription on the plate and beneath it an extract from the Lusad, the great epic poem of the Portuguese. After the services today the remains will be conveyed to the Orleans terminus, the garrison of Paris acting as escort.

The Czar Disturbed.

ST. PETERSBURG, Dec. 9.—The czar has become so disturbed in mind over the suggestions of certain of his counsellors that riots and insurrections may break out in the famine-stricken districts, that he has bestowed on General Annokoff as a member of the famine relief commission, absolute authority to decree the knout and exile to Siberia as penalties upon whomsoever he may see fit, within the area of his jurisdiction.

General Annokoff is given fuller power than the czar himself assumes to exercise, and all legal proceedings and courts are stayed, so far as interfering with Annokoff's action. In bestowing this unlimited authority, the czar states that he will hold Annokoff responsible for the maintenance of peace and the suppression of disorder in the famine regions. Annokoff has the reputation of being a harsh disciplinarian, and the peasants, it is intimated, will find in him another Mouravieff. On the other hand, a report is current that the czar has enjoined upon Annokoff to be as human as possible in his treatment of the people.

Triumph for the Protectionists.

MADRID, Dec. 9.—The new treaty makes a large increase in several duties and is a triumph for the protectionists. The right is reserved by Spain to concede rates below the minimum to those nations consenting to reciprocity treaties with the Spanish government.

A HORRID TALE.

To Save His Own Neck Isaac Sawtelle Confesses His Brother's Murder.

CONCORD, N. H., Dec. 9.—Isaac B. Sawtelle appeared Monday before the supreme court, full bench, to tell the story of the killing of his brother Hiram on the motion for a new trial. Isaac is already sentenced to die in New Hampshire, and the present action is to establish the fact, which the prisoner alleges, that the murder was done in Maine, where there is no capital punishment, instead of New Hampshire, under the laws of which state he is under sentence of death. The spectacle is presented of a murderer confessing murder of his brother to save his own life.

Sawtelle consumed three hours in telling his story. He told how he met his brother at Rochester, N. H., Feb. 5, 1889, while he had lured him from Boston by a telegram saying his child was sick. Isaac had a revolver in his clothing, a pick and shovel in the wagon he had waiting, and writing material with which, in a lonely shanty over the Maine line, he (Isaac) intended have his brother sign to him certain Boston property, or kill him for refusing. The murderer's story of the final scenes run thus:

"When I turned into the Marsh road he wanted to know where I was taking him. Directly I turned into the little path near the woodman's shanty in the woods. I saw he wanted to get out, and he did. Then he got in again. I said: 'Hiram, I came down here to talk with you. I don't want to lose the property on your account, and I don't want you to lose it. I have got some papers here that I want you to sign.' I took the papers from my pocket and said: 'You may sign these or take that,' pulling out a revolver and pointing it at him.

"He then jumped from the wagon and I after him. He fell down and said: 'Don't, Isaac; don't.' I said: 'No, Hiram, I won't. Do as I want you to do and I won't hurt you.' He held my hand in which the revolver was until after I promised not to hurt him. Then I stepped away and he got up. I then said: 'I came here not to do you any harm; I want some of the property from mother.'

"He then began to walk toward the shanty and after going some twenty feet broke into a run. I started after him and called several times: 'Hiram, Hiram, stop or I will fire,' and as he kept on running I fired. After the firing he ran a little way and fell. I then ran up to and shook him. He said nothing, and as I thought he was moving I fired three more shots into his body to put him out of pain. I then took hold of the boots and dragged the body about one hundred yards and began digging a grave. I took off his clothing.

"The grave I dug was not large enough, and I took the hatchet and chopped off his head and arms. I buried the arms, but took the head and put it in the bag with his shirt around it; put the bag in the wagon, and finally drove into the woods and buried the head under some birch trees. I dug a hole, took the head out of the bag, and as I buried it, said: 'Good-by, Hiram.' I threw the ax, lamp and shovel into the river, as I crossed from Maine back to Rochester; took Hiram's clothing to my boarding house and went to bed. I threw the clothing and revolver from a ferryboat into the harbor."

THE GIRLS' STORY.

Another Account of the Domestic Tragedy at Shawneetown, Ills.

NASHVILLE, Dec. 9.—Sheriff H. G. Shanks, of Shawneetown, Ills., passed through here last night on his way home from Cannon county, Tenn., where he arrested Misses Carrie and Belle Forester, on a charge of shooting with intent to kill.

The mother of the young ladies recently married a man named Thompson and they left home and lived with their brother-in-law. A week ago they met Thompson, who was drunk and attacked them. He knocked Miss Belle Forester down and was about to shoot her when her sister wrenched the revolver from his hands and turned it on him. He was wounded three times and probably fatally injured. The girls fled to an uncle's in Cannon county, where they were arrested.

Dying of Hydrophobia.

FORT RECOVERY, O., Dec. 9.—John Ulerman, a farmer about forty years of age, living seven miles northeast of this city, was bitten six weeks ago by a dog supposed to be rabid. The dog had been acting strangely for several days, and Mr. Ulerman resolved to put him out of the way, as he considered him dangerous. Having that end in view he very foolishly caught hold of the dog to tie him, when the dog bit him in the right wrist and forefinger. Mr. Ulerman at once took all the precautionary measures to prevent rabies, and had the wounds thoroughly cauterized by a physician. They healed nicely, and nothing but the scars were visible to indicate that he had been injured. A few days ago, however, he felt severe pains in the arm, and all the horrible symptoms of hydrophobia developed and his death is expected hourly.

ROSSER & McCARTHY,
Proprietors.

WEDNESDAY, DECEMBER 9, 1891.

THE smart editors who think Mr. Crisp's victory for the Speakership is a blow at Mr. Cleveland should poll the Congressmen who voted for the Georgian. If they'll do this, we venture the opinion that they will find a big majority of the Crisp men enthusiastic for Cleveland.

"I BEG to say to you that there is in our party to-day no man who more earnestly believes in the Democratic doctrine of tariff reform than I do." These are Speaker Crisp's words. They don't have any "protectionist" sound, but contain the ring of the true metal. Mr. Crisp's all right.

NEBRASKA is put down as safely Republican in figuring on the National contest next year, but a wonderful change has taken place out there since 1888. In that year the Republicans had a majority of 27,880, but in the late contest the vote stood Democrats, 71,331; Alliance, 70,187, and Republicans 68,878. The Republicans will have to do better than this if they want the State's vote for President in 1892.

The Vendetta.

The above melo-drama with W. A. Whitecar in the star part, has made a grand success (if we can believe the Eastern press). It is said his Count Romani is by far the best thing that he has ever attempted, being full of power and depth, the character itself giving him any amount of scope to work himself up to the highest degree as an actor. To make it brief it requires a first-class actor to play the part and Mr. Whitecar more than fills the bill, being an actor among actors. The scenery is spoken of as being something wonderful. The collision at sea is by far the grandest and largest mechanical effect ever placed upon a stage. A great many may say that they can't get the scenery up. Such is not the case, for the Vendetta Company carries two sets of scenery, one each for large and small stages.

Assignment for Benefit of Creditors.

The Superior Court in affirming the case of the Deposit Bank of Carlisle, &c., versus Lee, &c., taken up from Nicholas County, says:

First—While the intent with which all assignments for the benefit of creditors is made and not its tendency or effect determines the question whether or not the deed is fraudulent, the courts should require the closest proof of fraudulent intent before they set aside a deed made for the benefit of all the creditors in favor of one or more creditors, who attach after the assignment is made.

Where the attorney for an execution creditor notified the debtor of the execution and told him that unless he replevied the debt the Sheriff would have to close the store, and the debtor thereupon made an assignment for the benefit of his creditors, his admission that he made the assignment to prevent the execution creditor from "getting ahead" of his other creditors does not show that the assignment was made with a fraudulent intent.

Second—An execution delivered to a Sheriff with instructions not to levy it until directed to do so does not create a lien.

THAT GLASS PLANT.

Prospects Good for Securing Another big Manufacturing Enterprise.

The Ground Needed Already Promised and Some of the Stock Also. What Has Been Done.

Mention was made some weeks ago that Maysville had an opportunity to secure a big glass factory. Since then there has been but little said about the matter, and many people have no doubt concluded that it has dropped out of sight like some other proposed enterprises. Such is not the case, however.

The BULLETIN is glad to announce that the prospects for securing this big industry for Maysville are brighter to-day than ever before. Mr. J. D. Flynn, an experienced glass manufacturer, came here some days ago as a representative of the parties interested. After looking over the field, he made a written proposition that they would build and operate a \$75,000 glass plant, if the citizens of Maysville would donate three acres of ground and take \$25,000 of the capital stock of the company. The company would obligate itself to work 150 hands ten months in the year.

The proposition was placed before the Commercial Club yesterday morning. Quite a number of Maysville's business men were present. Mr. Barbour promised to donate the three acres of ground in the addition known as "Culbertson," and Mr. W. W. Ball agreed to take \$4,000 or \$5,000 of the \$25,000 worth of stock.

Messrs. Thomas A. Davis, E. P. Brown, and W. W. Ball were appointed a committee to confer with the L. and N. Railway Company and ascertain if the company would construct a switch from "Watkins' Cut" on the K. C. to the factory should it be built. If satisfactory arrangements are made for the switch then the committee will endeavor to secure the \$25,000 stock asked for. It will require a switch fifteen hundred feet long, and the cost outside of the rails and ties will be very small.

If built the factory will employ 150 hands, as already stated. The pay-roll will amount to \$2,500 per week, and the benefits of such an industry to Maysville are apparent to all.

One important fact that induced Mr. Flynn to make his proposition is that the Maysville Fuel Company offered to allow the glass company to use the Harris process of making gas for supplying the factory with fuel. This cheap fuel will greatly lessen the cost of operating the glass plant, and in view of this fact it is confidently claimed that the stock of the glass company can be relied upon to pay good dividends. This is what the new gas does for Maysville. With a pay-roll of \$2,500 a week, the glass plant means \$100,000 in wages distributed in this city annually. Where so much is to be gained by our people, they should put forth every effort to insure the success of the move to secure the new enterprise. The opportunity should not be permitted to pass. Let all who can take stock. Secure this enterprise and others will follow.

A CENSUS.

Council Provides for a Correct Enumeration of the Citizens of Maysville.

The Fuel Gas Ordinance Adopted. Only Two Votes Against It. Other Matters.

All members were present at the adjourned meeting of the City Council last evening except Mr. Pearce.

President Cox stated that the principal object of the meeting was to consider the fuel gas ordinance. He then read a report from the City Clerk stating that the only bid received for said franchise was from the Maysville Fuel Company, and that said bid was \$19.

On motion of Mr. Ficklin the bid was received and accepted. The ordinance was then placed on its second reading. On motion of Mr. Wadsworth the rules were suspended, after which Mr. Wood stated that he desired to offer an amendment. He spoke some time as to the poisonous character of fuel gasses. He thought that if this gas could be made as cheap as was claimed, the maximum limit of 50 cents per 1,000 cubic feet was too high. He moved that the ordinance be amended so as to fix the maximum cost to consumers at 36 cents per 1,000. There was no second to the motion. It was moved that the ordinance be adopted. Mr. Wood called for the yeas and nays. The vote resulted: Yeas 15, nays 2. Messrs. Wood and Rudy voting no. The bond for \$10,000 was then accepted. The sureties are Dr. John T. Fleming, Thomas Wells, Thomas R. Phister, Dr. John M. Frazee, W. H. Wadsworth, W. W. Ball, M. C. Russell, Colonel Frank S. Owens, Dan'l Perrine and Thomas A. Keith.

Thomas McDonald qualified as Deputy Marshal for the Sixth ward. He presented his bond for \$3,000, with H. H. Collins and T. M. Pearce as sureties, and same was accepted.

The question of taking a census of the city to ascertain the correct number of citizens in Maysville was brought up by the President. On motion of Mr. Wadsworth, the President was authorized to appoint a committee of one from each ward to take charge of the matter, appoint enumerators and supervise the business. The President appointed the following as said committee: W. H. Wadsworth, Jr., John C. Pecor, E. W. Fitzgerald, H. L. Newell, George C. Fleming and George Schroeder. It was moved and carried that the enumerators be allowed two cents for each name listed.

The President announced that he had assigned the new members to positions on the various committees as follows: Mr. Schroeder to the following committees: Ways and means, laws and ordinances, public health, public buildings and turnpikes and railroads; Mr. Tolle, internal improvements, propositions and grievances, wharves and ferries and police; Mr. Dressell, claims and accounts, fire department, gas and license.

Mr. Dressell moved that the subject of supplying the Sixth ward with gas and water be referred to the proper committees—the subject of gas to the Gas Committee and the matter of water to the Committee on Fire Department. The motion was seconded by Mr. Kehoe and was adopted.

For ulcers, scrofulous affections, boils, pimples and blood poison, Pioneer Sarsaparilla is commended to the masses. Placed within the reach of all. Price, 50 cents. For sale by Power & Reynolds.

MICHAEL JORDAN, the "candy butcher" arrested for stealing W. H. Melton's spectacles and a small sum of money, was brought here from Covington yesterday by Constable Dawson. The case was worked up by Constable Dawson.

HOUSE AND SENATE.

Proceedings of Both Branches of Congress.

SPEAKER CRISP SWORN IN.

Other Officers Elected, and the President and Senate Notified of the House's Organization—No Business of Interest Transacted in the Senate.

WASHINGTON, Dec. 9.—The session of the house yesterday was consumed in its organization and in disposing of routine matters necessitated by the new administration. After Clerk McPherson had called the members to order, Mr. Crisp was elected speaker, his opponents being ex-Speaker Reed and Mr. Watson, of Georgia—the candidate of the Farmers' Alliance. Mr. Reed and Mr. Mills escorted the new speaker to the chair amid great cheering and handclapping, and Mr. Crisp delivered a little speech of thanks for the honor conferred on him. The oath of office was then administered by Mr. Holman, of Indiana.

In accordance with the action of the Democratic caucus, James Kerr, of Pennsylvania, was elected clerk of the house; Samuel S. Yoder, of Ohio, sergeant-at-arms; Charles H. Turner, of New York, doorkeeper; Lycurgus Dalton, of Indiana, postmaster, and Rev. William H. Milburn, of Illinois, chaplain. The Republicans gave their complimentary vote to the officers of the last house. After committees had been appointed to inform the president and the senate of the organization of the house and members had selected their seats by lot, the house at 3:15 p. m. adjourned.

Senate Proceedings.

WASHINGTON, Dec. 9.—The only interesting business transacted in the senate yesterday was the seating of Senators Call, of Florida, and Dubois, of Idaho, pending the consideration of their cases by the committee on privileges and elections. The senate rather expected to receive the president's message, and set patiently waiting the return of the joint committee sent to the White House until apprised that the house had adjourned without waiting for the message whereupon the senate followed suit.

Secretary Foster Improving.

WASHINGTON, Dec. 9.—Secretary Foster has continued to improve. The symptoms of his case tended to indicate typhoid fever but these have in a measure disappeared. In his weak condition should typhoid set in, the worst is feared.

OHIO CROPS.

Report of the State Board of Agriculture for December.

COLUMBUS, O., Dec. 9.—The state board of agriculture has issued a crop and stock report for the month of December. It says:

The condition of growing wheat is not flattering, the plant being short and weak. Much of the late seeded is very feeble and thin on the ground. The condition is even less than estimated last month, and falls 25 per cent. short of a fair average condition. Damage by Hessian fly is reported in sixty-nine counties of the state, and by the white grub worm in twenty-three counties.

The estimate of the corn crop made Nov. 1, by percentage comparison on the whole, placed the average product per acre at between thirty-two and thirty-three bushels per acre. The present estimate from returns of bushels per acre makes an average for the state of about thirty-three bushels per acre, and upon this basis the crop is a fair one, though in the record for the past twenty years there have been eleven larger crops, eight of which were over 100,000,000 bushels.

The crop of 1890 was an exceptionally short one, and the crop of this year exceeds it by about 23,000,000 bushels. The present estimate of December potato crop is about the same as that made Nov. 1, viz., 12,000,000 bushels, an increase over the crop of 1890 of 7,000,000 bushels.

WHEAT BLOCKADE.

The Canadian Pacific Railroad Unable to Handle Their Shipments.

WINNIPEG, Man., Dec. 9.—Freight Agent Kerr, of the Canadian Pacific railroad, has notified the Manitoba Grain exchange that there is a tremendous wheat blockade in New York caused by heavy northwestern shipments, and that the West Shore railroad would refuse to receive shipments after the 17th.

It appears that some of the dealers were so eager to rush wheat forward that they purchased large quantities and shipped it before knowing where they were going to dispose of it, hoping to peddle it off while in transit. This caused the trouble on the West Shore road.

It is said there is a large block in elevators in Buffalo from the same cause. Some Manitoba dealers, who have been buying and shipping since the season opened, have not yet sold a bushel of their wheat.

Excellent Wheat Crop.

WABASH, Ind., Dec. 9.—The growing wheat throughout this part of Indiana is in excellent condition, though in some localities the plant was injured in the early fall by the dry weather. The wheat is extremely rank and the ground is heavily covered, so that a severe cold snap would be required to do much damage. The acreage is considerably larger than that of last year.

Cannot Accept.

CHICAGO, Dec. 9.—Ex-Secretary of State T. F. Bayard and James Hodges, of Maryland, who were selected by Director General Davis as members of the second national commission that was to visit southern European countries in the interest of the world's fair, have notified Mr. Davis that it will be impossible for them to make the trip. The other two members of the commission, Thomas D. Bryan and N. H. Higinbotham, have already sailed for Paris.
